Focus Areas

- Computer-Supported Cooperative Work (CSCW), Computer-Mediated Communication (CMC)
- AI-Mediated Communication, Human-AI Interaction, Future of Work

Education

University of Washington — Seattle, WA, USA
M.S. in Human Centered Design & Engineering (HCI) — Sep 2025 - Jun 2027 (expected)
GPA: 4.00 / 4.00

University of Toronto — Toronto, Canada
Honours B.A. with High Distinction, Sociology and East Asian Studies — Sep 2019 - Jun 2024
Capstone: *Voice of the Customer* for Pune Municipal Corporation, India — Sep 2023 - Apr 2024

Research Projects

"ChatGPT, Review This Message to My Prof": Investigating Students' Use of AI for Online Communication in Academic Settings — Jan 2026 - present
Lead Researcher, University of Washington
Designed and led an IRB-approved two-phase interview study (12 participants, digital-whiteboard elicitation, 110 recipient-channel groups consolidated into 31 contexts) on why and how students hand academic messages to AI. [p.2, n.2]

Understanding Interns' Experience of AI-Use Uncertainty and Its Effects on Well-being — Sep 2026 - present
Lead Researcher, University of Washington (with Alex Foster and Colin LeFevre)
Critical incident technique interview study of what interns weigh when deciding whether and how to use AI for work, the tactics they use when norms, permissions, or disclosure are uncertain, and the well-being effects they name.

"I Can Talk to AI, but the Making Is Mine": Professional Artists' Use of Generative Agents for Creative Work — Jan 2026 - Apr 2026
Lead Researcher, University of Washington
Led a 4-person team through an interview study with 5 professional artists on creative identity, authorship, and agency as generative AI enters their workflow; built a 68-code codebook in ATLAS.ti and framed the contribution distinguishing proactive, principle-based limits from reactive, quality-based fixes. [p.1]

[n.2] **Jared Ren** and Soobin Cho. 2026. Delegating Before Learning: Where Generative AI Sits in Students' Professional Communication. arXiv:2608.28837 [cs.HC] (accepted at the 2026 **CSCW workshop** *'Broader Impacts of GenAI in Communication'*)

[n.1] **Jared Ren**. 2026. An Account of Contribution Dissolution in a Research Team. Preprint to appear [cs.HC] (accepted at the 2026 **CSCW workshop** *'"Nobody Did This": Contribution, Originality, and Accountability in Agent-Mediated Collaboration'*)

Work Experience

Seattle City Light — Seattle, WA, USA
Continuous Improvement Intern, Customer Experience Division — Jun 2026 - Sep 2026
Publicly owned electric utility, City of Seattle
- Owned the residential rebate process documentation and streamlining project: go-and-see interviews across four stakeholder teams, three validated iterations of swimlane and value stream maps, and an A3 with six countermeasures, each with an owner and a 30/60/90 plan; adopted as the baseline for ongoing improvements.
- Facilitated two cohorts of lean improvement training (8 staff each, 16 contact hours) for engineers, people leaders, and field workers, and coached each participant's improvement project; each cohort identified about $50,000 in annual savings.
- Coded survey responses from 29 staff across 16 divisions into eight themes with reach metrics and Likert statistics; authored the summary report for leadership.
- Planned and ran a full-day 5S improvement event at the Skagit hydroelectric project; handed the visual standard, audit checklist, and sustain plan to the on-site owner.

Canada Revenue Agency, Government of Canada — Canada
Junior UX Researcher, Service Innovation and Strategy — Jun 2024 - Aug 2025
Strategy & Service Design Research Intern — Jun 2023 - May 2024
- Conducted 50+ interviews, focus groups, surveys, and card sorts with small-business taxpayers on a 2-person research team; senior management built the recommendations into the next quarter's mandate.
- Co-designed, with a senior officer, a filing-responsibility decision tree used by 1,000+ business filers; validated the structure with tree testing, raising task success 66% and reducing frontline call volume.
- Sole owner of the division's SharePoint information architecture: research, restructure, launch, and weekly upkeep as primary page manager; intranet traffic rose 25%.
- Built, with a senior officer, a divisional KPI dashboard and process maps across business units; developed onboarding materials and organizational mapping; mentored the section's intern.

HomeOptions — Remote
Operations Intern, 3-person operations team — Jun 2021 - Dec 2022
Real-estate technology startup
- Designed a HubSpot CRM integration and built an automated lead-generation pipeline (Airtable population, form fill, contact emails); daily leads rose from about 20 to about 100.

Honors and Awards

Graduate Student Conference Presentation Award, University of Washington — Fall 2026
HCDE BS/MS Conference Fund Travel Award, University of Washington — Fall 2026
Honours B.A. with High Distinction, University of Toronto — Jun 2024
Munk Student Excellence Award, University of Toronto — Mar 2024
Kakehashi Project Award, Japan-funded cultural exchange — Feb 2023
Dean's List Scholar, University of Toronto — Winter 2023
Language Citation in Chinese, University of Toronto — Winter 2021

Volunteer and Community Service

Seattle Asian American Film Festival (SAAFF): Usher and Accessibility Volunteer 2026
Seattle City Light Family Day: Registration and Check-in Volunteer 2026
Neighborhood Farmers Markets, Seattle: Community Research Volunteer 2026

Skills and Languages

Qualitative methods: semi-structured interviews, focus groups, thematic analysis and codebook development, contextual inquiry, field observation (AEIOU), intercept interviews, participatory and community-based design, cultural probes, card sorting, tree testing, usability testing (moderated, cognitive walkthrough, heuristic evaluation)

Quantitative and process methods: survey design, Likert and SUS instruments, descriptive statistics, lean process mapping, value stream mapping, A3 problem solving, 5S

Programming and tools: Python (pandas, matplotlib, Plotly), LLM APIs (Anthropic, OpenAI), LLM fine-tuning, Git/GitHub, Jupyter, ATLAS.ti, draw.io, Excel, Jira, Confluence, SharePoint, Streamlit

Languages: English (fluent), Mandarin Chinese (intermediate), Japanese (intermediate), French (conversational)
